## SERVICES

# ABOUT OUR COMPANY

Established in 2012 and headquartered in Dubai, UAE, ORILL is a leading supplier for the Oil & Gas, Defense, and Industrial sectors.

We are committed to quality, reliability, and customer satisfaction, supported by a certified and trusted supplier network.

## OUR SKILL

We are a performance-driven company that values excellence and continuous improvement.

## OUR VALUES

We focus on anticipating customer needs and delivering high-quality products and services promptly, within budget, to meet the demands of an evolving industry

**Commitment to Quality and Reliability**

**Innovative Solutions for Evolving Industries**

**Client-Centric Approach**

**LONG EXPERIENCE**

**WE LOVE RESULTS**

## CORE SERVICES

## OILFIELD SUPPLIES

## WE OFFER 4 CORE SERVICES

1. Procurement Supply Contracts & General Supply Agreements
2. Approved Supplier
3. Full or Part Outsourced Procurement Services
4. Ad Hoc Procurement

### Defense & Military Supplies

ORILL provides efficient, secure, and cost-effective global transportation and distribution, ensuring on-time delivery through hubs and consolidators across Angola, Asia, Europe, the Middle East, and the US.

# Wheel Safety Products

- ⊕ Checkpoint
- ⊕ Dustite
- ⊕ Checklock SQ
- ⊕ Safewheel Twin
- ⊕ Rimrite
- ⊕ Squirrel
- ⊕ Trucklock
- ⊕ Checkpoint Short Arrow
- ⊕ Dustite LR
- ⊕ Checklink
- ⊕ Safewheel
- ⊕ Checkthread
- ⊕ Rollock
- ⊕ Luglock
- ⊕ Disc-Lock
- ⊕ Checkpoint Medium Arrow

# Hose & Fittings

- ⊕ Hydraulic Hoses, Fittings & Adaptors
- ⊕ Industrial & Large Bore Hoses
- ⊕ Stainless Steel Metallic Hoses Bellows
- ⊕ Thermo Plastic UHP/HP Hose
- ⊕ Composite Hoses
- ⊕ Accessories
- ⊕ Breathing Hoses
- ⊕ Industrial Hoses Fitting
- ⊕ Stainless Steel Expansion
- ⊕ Quick Release & Specialty Coupling
- ⊕ Drilling Hoses
- ⊕ Industrial Power Transmission

# DISTRIBUTION PRODUCTS

## Distribution Products for the Oil and Gas Industry

We specialize in providing distribution products from leading brands for the oil and gas sector. These products ensure reliable, efficient, and safe operations throughout the industry's value chain. Our product portfolio includes high-quality solutions for pipelines, refineries, and distribution centers.

Matherne Instrumentation

Jet-Lube

Kong

Ironclad Performance Wear

Checkpoint Safety

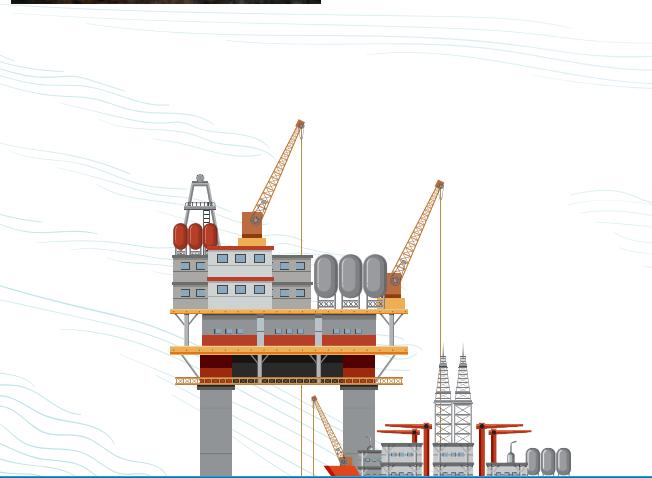

Offshore Handling Systems

Safety Grip

Janki Oil Tools

# PRODUCTS WE SUPPORT

At our company, we are committed to supporting a wide range of high-quality products from leading manufacturers across the oil and gas industry. We ensure that all the products we distribute meet rigorous industry standards for performance, reliability, and safety. Whether it's equipment for exploration, drilling, refining, or distribution, our supported products are designed to enhance operational efficiency and meet the unique demands of the sector. We also provide equipments including drilling tools, handling tools, fishing tools and tubulars for rental

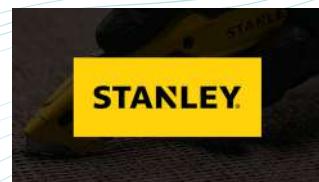

We work closely with our partners to offer technical support, training, and after-sales service, ensuring your operations run smoothly with the best tools and solutions.

Lazerp

Crouse-Hinds Series

Continental Tyres

Rig Galley Equipments

Mud King

American Friction

In conclusion, our dedication to supporting top-tier products ensures that your operations benefit from the best solutions available in the oil and gas industry.

By partnering with leading brands, we provide comprehensive product support, expert advice, and after-sales services that help you optimize performance and maintain the highest standards of safety and reliability.

You can trust us to equip your business with the tools and resources necessary to succeed in this ever-evolving industry.

# TUBULARS

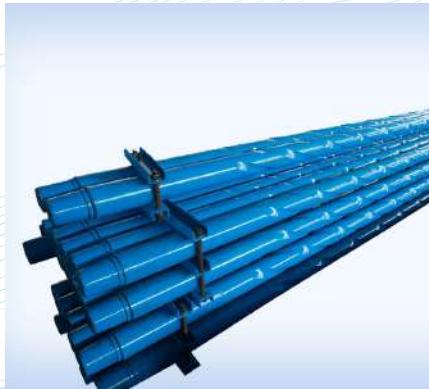

- ⊕ 2 3/8" to 6 5/8" OD standard drill pipe
- ⊕ 2 3/8" to 6 5/8" OD HWDP Special sized high-torque drill pipe with DSTJ, HT, XT, XTM & API Connections
- ⊕ 2 3/8", 2 7/8", 3 1/8", 3 1/2", 4", 4 1/2", 5", 5 1/2", 5 7/8" to 11" Slick and Spiral Drill Collar with DSTJ, HT, XT, XTM & API Connections
- ⊕ Special sour service grades Drill pipe and HWDP - CY-105, XD-105, C110, SS 110

Drill Pipe

Heavy Weight Drill Pipe

Spiral Drill Collars

Spiral Drill Collars

Slick Drill Collars

Non- Magnetic Drill Collars

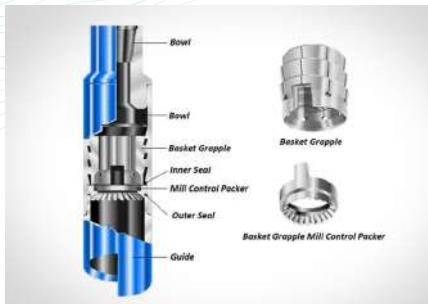

Tubings

Pup Joints

# FISHING TOOLS

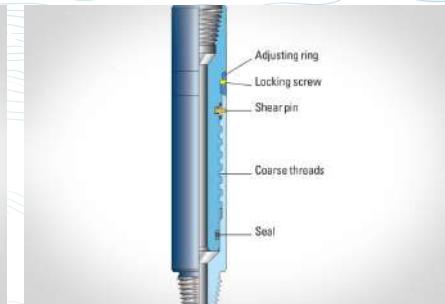

## Overshot And Accessories

- ⊕ Series 150 and 70SC Releasing and Circulating Overshot retrieves tubular items from the wellbore
- ⊕ External catch fishing tool
- ⊕ Rugged, economical, and easy to use
- ⊕ Size from 2- 5/4inch to 20- 3/4inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Die Collar And Taper Tap

- ⊕ Designed to externally engage and retrieve tubular fish that cannot be rotated.
- ⊕ Die Collar is an external catch fishing tool designed to retrieve tubular members from the wellbore.
- ⊕ Size from 1.66 inch to 8-1/8 inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Safety Joint

- ⊕ Positive Releasing Mechanism Effectively disengages the catching tool from the wellbore.
- ⊕ Leak-Resistant Internal Seals Enables high circulating pressure without leak paths.
- ⊕ Canfield Thread Form Available for washpipe applications.
- ⊕ Size from 3-1/8 OD to 9 OD
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Reverse Circulating Junk Basket

- ⊕ Reverse Circulating Junk Basket (RCB) is a junk retrieval tool designed to remove all types of objects from the bottom of the well bore.
- ⊕ Size from 3-5/8inch to 15inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Boot Basket

- ⊕ Boot Basket (Junk Sub) is an accessory tool used in milling or drilling operations.
- ⊕ It is designed to prevent cuttings that are too heavy to be circulated from settling to the bottom of the hole.
- ⊕ Size from - 3-11/16inch to 12-7/8inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Fishing Magnet

- ⊕ Fishing Magnet is a junk retrieval tool designed to effectively remove metal particles, shavings, and debris from the bottom of the wellbore.
- ⊕ Size from 1 inch to 22inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Mechanical Internal Cutter

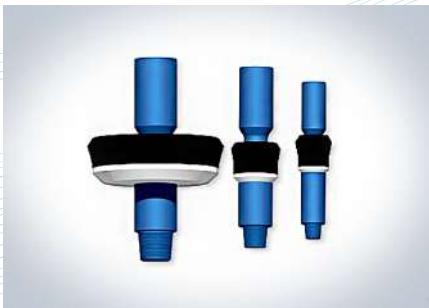

- ⊕ Mechanical internal cutter is a tool which is used for cutting downhole fixed (or stuck) pipe from inner of casing, it can work at any place except joint and coupling.

# FISHING TOOLS

## Pilot Mills

- ⊕ Pilot Mills are commonly used to mill casing, liners, washover pipe, drill pipe, and tubing.
- ⊕ Available Sizes- Ranges from 3½ inches to 17 inches with fishing necks from 3½ inches to 8 inches.

## Cup Testers

- ⊕ Cup Testers are available in many sizes, and rated at 10 ksi or 15 ksi.
- ⊕ Cup Tester Assemblies are designed to be attached to the drill string and lowered into the casing beneath the wellhead to pressure test the blowout preventer stack and the wellhead.
- ⊕ Size from 4-1/2 inch to 20 inch with various casting weight range.
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## ITCO Standard Spear

- ⊕ The Itco-Type releasing spear is a superior fishing spear that ensures positive engagement with fish.
- ⊕ Wide Compatibility Internally engages and retrieves drill pipe, casing, tubing, or other obstructions
- ⊕ Size from OD 1-7/8 to OD 11-3/4
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Fishing Jar / Intensifier / Bumper Sub

- ⊕ Fishing Jar is an easy-to-use accessory tool that assists in various operations such as fishing, testing, coring, reaming, and washover
- ⊕ Designed to be installed in the string above the fishing tool assembly,
- ⊕ Size from 3-½ inch to 8 inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

## Casing Scraper

- ⊕ Casing Scraper is designed to remove scale, mudcake, cement sheath, embedded bullets, and other foreign material from the inside of the casing wall.
- ⊕ Maintaining a clean casing I.D.
- ⊕ Size from 4 inch - 20 inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards

## Impression Block

- ⊕ Washout prevention sleeve
- ⊕ Easily refillable
- ⊕ External fish neck
- ⊕ Flat-bottom, conical, or other
- ⊕ Size from 2-37/4 inch to 20 inch
- ⊕ The size can be modified according to customer specifications, in compliance with API standards.

# DOWNHOLE TOOLS/ BHA

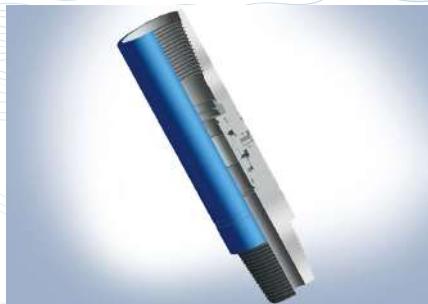

## Jars

- ⊕ Automatically resets by applying string weight on the packer
- ⊕ Withstands HPHT environments
- ⊕ Controls metering
- ⊕ Provides an unlimited number of concentrated shock loads

## Stabilisers

- ⊕ Three blades x 270-degree wrap
- ⊕ Longer crown lengths
- ⊕ Typically highest total flow area (TFA)
- ⊕ Most meet API SPEC stabilizer dimensional requirements
- ⊕ Hardfacing on crown and leading edges

## Kelly Valves

- ⊕ API Spec 8C tested and compliant configurations available
- ⊕ NACE trim
- ⊕ Available in a wide variety of sizes and end connections
- ⊕ Reliable, field proven, serviceable design

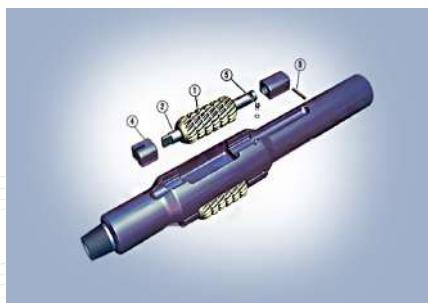

## SHOCK TOOLS

- ⊕ Full range of WOB applications
- ⊕ Low bit weights with high pump pressures
- ⊕ High-temperature holes

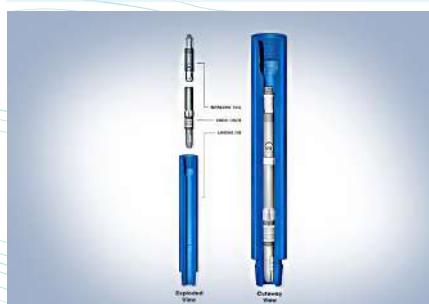

## Hole Opener

- ⊕ Bladed Hole Opener
- ⊕ Security Custom Hole Openers
- ⊕ Focus on Speed & Reliability

## Roller Reamer

- ⊕ Versatile Design
- ⊕ Durable Construction
- ⊕ Field Replaceable Parts

## Drop In Check Valve (Dicv / Dart Sub)

- ⊕ Easy Maintenance
- ⊕ Connection Flexibility
- ⊕ High & Low Pressure Sealing

## Lifting Plugs And Caps

- ⊕ A specialized tool used for lifting drilling tools in petroleum, natural gas, drilling engineering, and geological exploration.
- ⊕ It is available in two types: integral type and circular type.
- ⊕ Designed to support the safe and efficient handling of drilling tools during lifting operations

## Mud Buckets And Accessories

- ⊕ Able to handle wide range of stickups
- ⊕ Minimal space occupied on drill floor when parked
- ⊕ Quick replacement of mud seal
- ⊕ Quick connections on mud hose
- ⊕ Emergency stop located in control stand

String Mill & Watermelon Mill

- ⊕ Mill is designed to clean out casing and whipstock windows.
- ⊕ It features short leading and trailing angles for effective cleaning.
- ⊕ The mill is capable of clearing "bird nests" and other obstructions in the string.
- ⊕ It works while the bottom hole tool is milling.
- ⊕ Mill ensures that the milled section maintains full gauge.

Circulating Swage

- ⊕ Attached to the top of drill pipe or tubing.
- ⊕ Allows pumping into the well.
- ⊕ Also called a Circulation Sub.
- ⊕ Used for casing, drilling, and OCTG circulating.

## VARIOUS KIND OF SUBS

Pump-in Subs

- ⊕ Allows fluid to be pumped into the drill string.
- ⊕ Fitted with a 1502 Weco® connection.
- ⊕ Connection can be on box, pin, or side of the sub.
- ⊕ Other ends have drill pipe connections.

Side Entry Subs

- ⊕ It enables various operations, such as drilling, fishing, and wireline, through the drill pipe.
- ⊕ It allows these operations without interference from the rig's top drive unit.

Saver Subs

- ⊕ It is screwed onto the bottom of the kelly or top drive and onto the top of the drill string.
- ⊕ When deepening the hole and adding pipe to the drill string, the threads are unscrewed between the saver sub and the drill string.

Reduced Subs

- ⊕ Subs are used to connect the drill bit to the next piece of equipment in the Bottom Hole Assembly (BHA)

Lifting Subs

- ⊕ It is designed for lifting drilling tools.

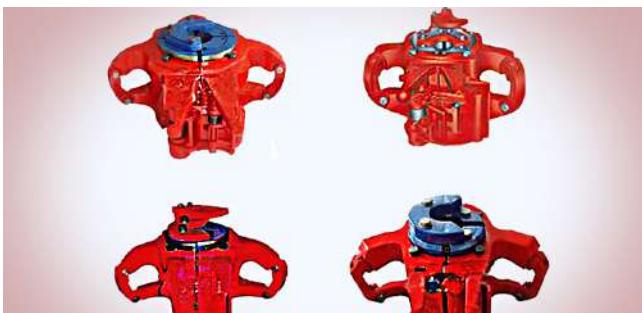

Crossover Subs

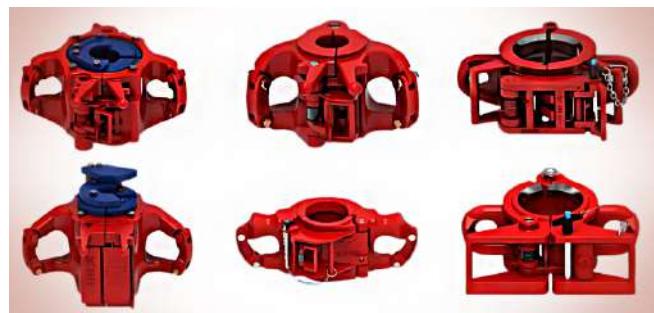

- ⊕ Crossover subs are essential for drilling operations, providing flexibility to adapt the drill string to well-specific requirements

# HANDLING TOOLS

## Slip Type Elevators

- ⊕ YT: Suitable for various tubing sizes, providing versatility in different drilling scenarios.
- ⊕ HYT: Heavy-duty model designed for high-stress applications, ensuring maximum reliability.
- ⊕ MYT: Offers robust performance for medium-duty operations, balancing strength and weight

- ⊕ YC: Standard model for casing operations, suitable for a range of drilling conditions.
- ⊕ MYC: Mid-range model that offers enhanced strength for various casing applications.
- ⊕ HYC: Heavy-duty casing model designed for demanding environments and high-pressure applications.

### Sjl/Spl Elevators

- ⊕ Safety Improvement
- ⊕ Proper Handling
- ⊕ Protection for Pipe Threads
- ⊕ User-Friendly Design

- ⊕ API Compatibility
- ⊕ Enhanced Load Distribution
- ⊕ Damage Prevention
- ⊕ Robust Buttress Design
- ⊕ Versatile Use

### Casing Slip/Drill Collar Slips/UC-3

- ⊕ Holding Mechanism
- ⊕ Ease of Installation
- ⊕ Improved Safety
- ⊕ Versatile Application

### Safety Clamp & Multipurpose Safety Clamp

- ⊕ Tubing and Casing Options
- ⊕ Multipurpose Design
- ⊕ Included Accessories
- ⊕ Manual Operation
- ⊕ Flexible Design

### Side Door Elevator / Drill Pipe Elevator/ Drill Collar Elevators

- ⊕ Safety Mechanisms
- ⊕ Heavy-Duty Construction
- ⊕ Versatile Sizing
- ⊕ Quick Release
- ⊕ Inspection Points

### Elevator Links

- ⊕ Durable Material
- ⊕ Versatile Design
- ⊕ Safety Mechanism
- ⊕ Load-Bearing Capacity
- ⊕ Corrosion Resistance

# HANDLING TOOLS

Flush Mountain Slip (FMS)

- ⊕ Quick Setup
- ⊕ Enhanced Safety
- ⊕ Torque Absorption
- ⊕ Hinged Design
- ⊕ Versatile Operation

Manual Tong

- ⊕ Durable Construction
- ⊕ Adjustable Jaws
- ⊕ High Torque Capacity
- ⊕ Safety Features
- ⊕ Lightweight Design

Bowls &amp; Bushings

- ⊕ Insert Bowls are manufactured in strict accordance with the latest API-7K specifications, ensuring their quality and compliance with industry standards.

Casing Thread Protector

- ⊕ 360° Grip
- ⊕ Maintenance-Free
- ⊕ Rugged Buffer
- ⊕ Versatile Attachment
- ⊕ High Resistance
- ⊕ Air Pressurization

Air Operated Spider Elevator

- ⊕ The elevator/spider tool is designed for lifting and suspending tubular goods, from light tubing to heavy wall pipe and drill collars.
- ⊕ The main body of these units can be dressed as a casing elevator or as a spider.

Drill Pipe Power Tong

- ⊕ It is mainly used to tighten or disassemble drill pipes, providing high torque and high rotation speed to ensure a firm connection of the drill pipes and improve construction efficiency.
- ⊕ It is equipped with an intelligent control system to achieve precise operations, including the rotation and stopping of the drill pipe, and the adjustment of torque, ensuring the accuracy and safety of the construction process.

## SERVICES

# PRODUCTS FOR RENTALS

Our equipment hire services in UAE provide solutions to industries such as construction, oil and gas due to their ongoing requirement of heavy equipment. We understand the costs involved in this competitive market making it difficult for the contractors to buy machinery. We offer a wide range of heavy machinery tools to hire across UAE available at reasonable prices. If you're looking to hire handling tools diesel generators, lighting tower, air compressors, welding machines and other heavy construction equipment on lease, we got you covered.

With a wide range of rental heavy equipment in our inventory, we make sure that we provide the newest and latest machinery to our clients so that reliability and optimal performance can be attained. Our team of trained engineers and professionals can assist and guide in selecting the equipment best suited to your needs. If you're looking for a trusted heavy rental equipment company in UAE. We're the one you're looking for.

In addition to our core offerings, we now provide an expanded selection of tools available for rental, including BHA and drilling tools, TRS tools, fishing tools, and a variety of tubular sizes. This rental service is designed to deliver enhanced flexibility and cost-effectiveness, ensuring that the right tools are accessible for seamless and safe project execution.

## SERVICES

# CALIBRATION & TESTING

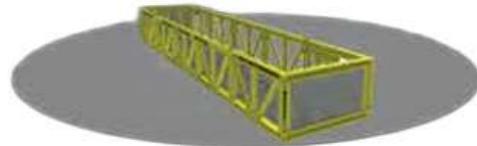

We provide repair and calibration services for a wide range of test and measurement instruments, regardless of brand or origin.

- Electrical/Electronics
- Pressure Calibration
- Temperature & Humidity Calibration
- Mass & Dimensional Equipment Calibration
- Environmental Quality Monitoring
- Flow & Force Calibration

# ENGINEERING AND FABRICATION

Orill Oilfield Supplies mainly provides custom design, fabrication and refurbishment of oil and gas equipment packages. We also custom-build oil and gas equipment/systems as per customer requirements

## SERVICES

# BUNKERING & FUEL SUPPLY

### U.A.E. Bunker Supply – Reliable & Fast

We provide physical bunker supply across the U.A.E., delivering high-quality oil products via our own road tankers. Our scale and buying power allow us to offer competitive prices and flexible payment options.

From 5 to 50 Metric Tons, we ensure secure, uninterrupted supply with 24/7 support and emergency deliveries. Our experienced team guarantees prompt responses and fast delivery, minimizing supply risks for our clients.

Expert operations team

Round-the-clock service

Quick and reliable delivery

### Oil & Gas Construction Services

Our team of construction, engineering and electrical experts provides integrated, varied services for companies in the oil and gas industry. Our professionals leverage decades of expertise in the construction and oil & gas industries, across a wide variety of construction-related roles and disciplines, to deliver exceptional service and quality workmanship. We serve companies throughout Middle East region.

### Dependable Oilfield Construction Support

From heavy civil construction and construction management to roustabout crews and artificial lift installs, we provide services that keep the energy industry operating safely and efficiently.
